## 2 Identification of this person

**Name as stated in the evidence:** Shakil Bukhari.

**Role:** Father of the primary perpetrator (Syed Faraz Haider). According to the Complainant, when she attempted to escalate the matter to the family rather than going public, the father instead joined in the harassment.

### Profession and public presence

Mr. Shakil Bukhari publicly self-identifies on Facebook as a **TV Presenter / radio announcer** and a **Compere** (master of ceremonies). He has 2,600+ Facebook followers and uses his profile to publish content under the “Digital creator” category. His listed education – **Sacred Heart School, Lahore** and the **University of the Punjab** (the oldest and one of the largest public universities in Pakistan) – places him as a Lahore-based media-and-events figure of some local visibility. His personal-details panel states his location as **Lahore, Pakistan** and his marital status as **Married**. The investigating officer should note that his place of self-stated residence (Lahore) is *not* the UAE; the threats at **EX-16** and **EX-27** are nevertheless within UAE jurisdiction because the messages were sent via a UAE telecom network (+971 58 527 4179).
